

AJS Design Studio

AJS Design Studio is proudly creating romantic and fashion forward fine silver and costume jewelry to a distinctive array of clients since 2004. Our inspiration comes from great civilizations including Roman, Ottoman, and Pre-Columbian. We use old jewelry making techniques with attention to detail, quality, and originality.

We have a great selection of rings, earrings, necklaces and bracelets in sterling silver, which are available with or without gold plating. Our rings have very stylish adjustable bands that fit most sizes. We use 22 karat gold wash to give our jewelry a rich, old world look.

Our designs are featured in InStyle, Domino, and Working Mother's magazines as well as trade publications such as Atlanta Gift Market Guide, Gifts & Decorative Accessories. Celebrity clients include Tyra Banks, Debra Messing, Vanessa Williams, Angela Bassett, Elizabeth Moss, and Laura Linney.

AJS Design Studio's original designs can be found in many fine retail establishments nationwide.

We are continuously working hard to create unique pieces that will be enjoyed and cherished many years to come.

Sincerely,

Andrea Justine Stratton
